

"ask not for a job; take pride in choosing it yourself"
-dots2drops

Founded by IIT Bombay alumni with over 22 years of experience, dots2drops has pioneered a new concept in skill development, for software industry. Skill will be imparted with a blend of research, theory and practical mixed in right proportion, so that the student would have the motivation to learn more & in-depth and stand out in competition.

How We are Different?

- ✓ Daily
 - 2 hrs of Theory
 - 4 hrs of Practical
 - 2 hrs of Self-Learning
- ✓ Soft Skills
- ✓ Limited Batch Size of 30
- ✓ Unlimited Lab Hours
- ✓ Syllabus per Current Industry Need
- ✓ Individual Approach to Student
- ✓ Real Project Experience
- ✓ Amicable Lab Instructors
- ✓ Mock interviews
- ✓ Trustworthy Course Certificate
- ✓ 100% Skill Satisfaction, else take refund
- ✓ Interact with Architects worldwide
- ✓ Faculty Level: Architects with 16+ yrs of exp

Companies hiring dots2drops' students would benefit in many ways including -

- can confidently assign the projects
- almost no ramp-up time
- shorter delivery-timelines for same work
- complementary high overall productivity
- less overall cost of development

How our programs help current students?

- get an edge over others in market with strong technical competency

Faculty Development Programs: We execute high-value faculty development programs and after completing the same, faculty would be able to deliver their classes with a different perspective, magnitude and technology-mindset. Now, software industry needs a complete engineer than a half-baked software programmer. We bring this transformation in the faculty so that they can transform the students as required by industry.

Students/Faculty can email us info@dots2drops.com for college or group **discounts**. For economically-poor students with good academic performance, we provide 100% sponsorship of program.
